Sub:- Disconnection of MSEDCL power supply provided to various Telephone Exchanges & Mobile Towers of BSNL in Maharashtra.

Respected Sir,

BSNL is a Central Govt. PSU working under the administrative control of Department of Telecom. Due to the cut throat competition in Telecom sector and the reduced telecom tariffs because of this competition, BSNL is facing severe cash crunch. The salaries of the employees are also not paid for the month of Feb., 2019. But we are more worried about the disconnection of MSEDCL power supplies to various telecom exchanges due to non-payment in last few days. This has resulted in lot of inconvenience to the public and also to the important Govt. Institutions as well as Banks, Corporate Sector etc.

Election schedule is already declared and disconnection of BSNL lines due to non-payment may result in interruption of these vital communication services during the election period. Most of the Election Centers, most of the counting centers, Collector & Revenue Offices, below Collector level offices are connected by BSNL landline. BSNL may not be able to maintain this service at this crucial time if MSEDCL continues to disconnect the electricity supply of our telephone exchanges.

The revenue flow of BSNL is increasing over last month and all the outstanding electricity payments will be paid in due course of time. Hence, we would request you to issue the necessary instructions to the Hon'ble Minister of Energy for providing uninterrupted MSEDCL supply to BSNL Telephone exchanges and Mobile Towers till election process is over .

With regards,

Yours sincerely
