No: 27-114/NWO-BB&IN/2018-19/CFA Review

Dated: 10-09-2021

To,

The Chief General Manager,  
Telecom Circles, BSNL

**Sub: C-PAN Portal for improving FTTH roll out-reg.**

1. In the review meetings held with Circles, it has been pointed out that due to scarcity of C-PAN Ports, the roll out of new OLTEs are getting hampered.
2. In order to improve the availability of right information related to C-PAN Port inventory, a portal (<https://cluster.bsnl.co.in>) has been developed by ITPC Pune, wherein all the working C-PANs, country-wide in BSNL network, have been taken into master data.
3. Now, it is required that the One Network team should login into the above said Portal and do the mapping of C-PANs available in the system to the exchange/BTS location in BA. For One Network Team members, Credential of this portal can be created with the help of Circle Nodal officer for Cluster Portal. Any further help may be taken from Shri Sandeep Lakkad, SDE in ITPC Pune. His Email-id is [bhelpcluster@gmail.com](mailto:bhelpcluster@gmail.com) and Mobile Number is 9422078884.
4. By doing above said mapping of C-PAN to exchange/BTS, the One Network team will be able to appreciate location wise C-PAN portal availability and accordingly may decide nearest available C-PAN port in the BA for connecting a new OLTE.
5. This exercise should be completed by 20<sup>th</sup> of September, 2021.
