Subject: - Regarding standard format for OFC laying proposals

This office is in receipt of various OFC laying proposals from different Circles. It is observed that circles are following different methods for calculation of expenditure which causes difficulty in evaluating these proposals. In order to maintain uniformity, a standard format, as enclosed, is prepared. All the Circles Heads are requested to ensure that in future all OFC laying proposals are submitted as per enclosed format. Any deviation from this format needs to be substantiated with suitable reasons.

This is issued with the approval of competent authority.
